

PRECISION CLEANING,
RIGHT IN YOUR HANDS

**MHV 20****Serenit**

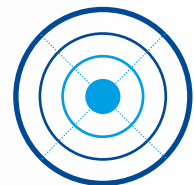

1 COMPACT AND CORDLESS FOR TOTAL FLEXIBILITY

Cordless and independent from the filtration system, it provides 45 minutes of cleaning thanks to its **Lithium-Ion battery**. It is easy to steer with a **rotating head** and lightweight design of **3,3 kg**. With its fast indoor recharge in just 2,5 hours and a wall mount holder included, it is always ready to use.

2 TARGETED CLEANING EXACTLY WHERE IT'S NEEDED

A 6 cm inlet ensures precise debris pick-up. **2 cleaning modes** can be manually selected to match the pool area, with shallow end mode covering depths from 20 to 50 cm and deep end mode designed for areas beyond 50 cm. **Ideal for stairs, benches, and elevated platforms** the telescopic handle with 3 positions provides full reach for accurate cleaning in corners and hard-to-access spots.

3 SIMPLICITY DRIVEN BY PERFORMANCE

One-button control with LED indicators makes operation intuitive. Its powerful 59 L/min suction and its adaptable **double filtration system** can combine a 470 µ main canister and a 20 µ sleeve (included) to catch finer debris, ensuring a spotless pool. After the cleaning, the **canister can be empty easily** thanks to the built in handle.

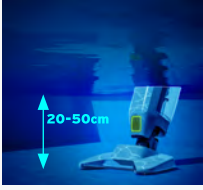

CHARACTERISTICS

FLEXIBLE AND ROTATING HEAD

ensures smooth and effortless guidance of the vacuum during cleaning.

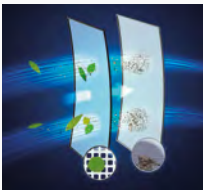

SHALLOW END MODE

to clean steps, benches, and elevated platforms in water depths from 20 to 50 cm.

TARGETED CLEANING

thanks to 6cm inlet for precise pick-up.

DUAL STAGE FILTRATION

Allows for the effective suction of even the finest debris.

TECHNICAL INFORMATION

Number of motors	2
Cleaner dimensions (W x D x H)	22x150x22 cm
Cleaner weight	3,3 kg
Cleaning cycles	- Shallow end mode: for water depth from 20 to 50 cm - Deep end mode: for water depth above 50cm
Pole length	Telescopic - 80cm to 170 cm
Suction flow	59 L/min
Filter capacity	1L
Filtration	Filtration 470 µ & 20 µ sleeve
Cleaning width	6 cm
Running time	45 min
Battery	10.8V / 2.6Ah
Vacuum head	Flexible rotating head
Safety	Out of water safety

WHAT TYPE OF POOLS?

1 FOR IN-GROUND AND ABOVEGROUND POOLS WITH RIGID WALLS

2 MINIMUM WATER LEVEL: 20cm

3 CLEANING OF THE FLOOR, STEPS, BEACH ENTRY AND ELEVATED PLATFORMS

INCLUDED ACCESSORIES

Charger

Wall mount holder

Telescopic pole

Transparent filter 470 µ

Filter Sleeves x2 - 20 µ

Cordless handheld pool vacuums are designed for convenient, spot cleaning of pools and spas. Powered by rechargeable batteries, they operate independently of the pool's filtration system and are ideal for removing debris from steps, corners, and other hard-to-reach areas.
