

AQUA CONNECT: SMART ON-PIPE SENSOR

STAY CONNECTED, STAY PURE

AQUA CONNECT: SMART ON-PIPE SENSOR

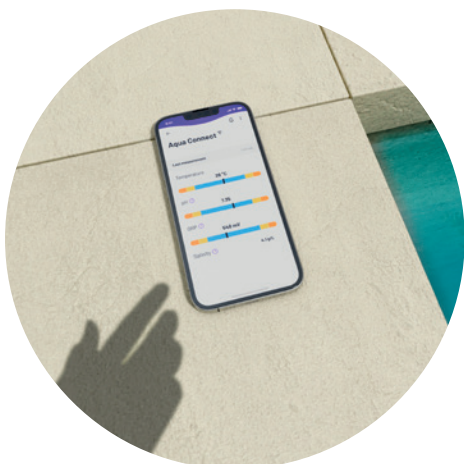

STAY CONNECTED, STAY PURE

ALWAYS ACCESSIBLE

Aqua Connect is an advanced and easy-to-use solution to keep your pool in perfect condition. With a **direct power supply**, there's no need to worry about batteries or recharging.

Its **quick and simple installation** on 50 mm and 63 mm PVC pipes ensures you can start monitoring and maintaining your pool effortlessly in just a few steps.

With **Wi-Fi and Bluetooth connectivity**, you can easily check your pool's parameters in real time through the Fluidra Pool® App, giving you complete control no matter where you are.

INTEGRATED CONTROL

Thanks to its **4 intelligent sensors**, the device monitors in real time: water temperature, pH, ORP, and salinity.

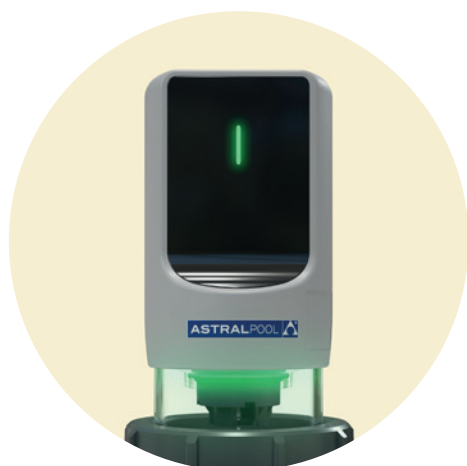

The system provides you with personalized **expert recommendations** through the Fluidra Pool® App, ensuring your pool is always in optimal condition.

QUICK CHECK

The integrated **LED indicator** lets you quickly check the status of your pool water, hassle-free.

With the **Fluidra Pool® App**, you can view key parameters like temperature, pH, ORP, and salinity in real time and monitor them effortlessly from the palm of your hand.

TECHNICAL SPECIFICATIONS

GENERAL INFORMATION	
Code	WA000102
Weight	1010 g
Operating temperature	5°C - 50°C
Storage temperature	-20°C - 60°C
TYPE OF POOLS	
Pools	Pools and Spas
Disinfection	Chlorine, Bromine and Salt
SENSORS	
Temperature	Yes
pH	Yes
ORP / Redox	Yes (Gold sensor)
Salinity	Yes
CONNECTIVITY	
Bluetooth	Yes
Wi-Fi	Yes
Measurements	Automatic (48 per day)
Notifications	Yes
Recommendations	Yes
Fluidra Pool® App compatibility	iOS 13+, Android™ 7+
TECHNICAL FEATURES	
Input	230 VAC, 50 Hz
Output	5 VDC ±0.5 VDC, 1000 mA
Others	Cable length: 2 m (AC), 2 m (DC)
